ACCIFORM WireWipe by AIM

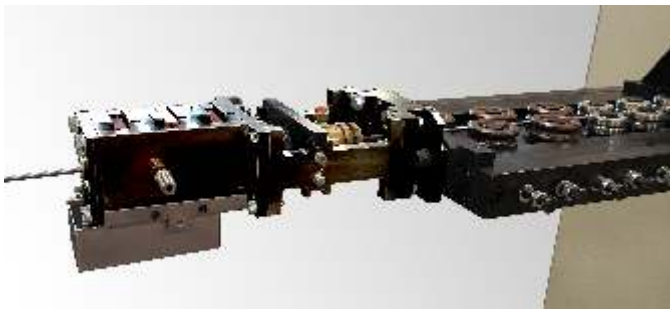

Metallic dust mixed with oil and grease will cause machine problems and failures with production stops.

Are you tired of the mess?

Are you wasting production time cleaning your wire equipment?

Now you can prevent it!

A small device wiping the wire before it enters equipment:

- The wire goes through multiple high durometer rubber wipes, easily replaceable by the user.
- Oil and debris is collected in a container.
- Keeps your equipment clean and dry
- Increase production by reducing cleaning maintenance
- Low maintenance costs

Available in two versions:

1) A simple 3-wipe system

2) A simple 3-wipe system with a liquid cleaning and drying stages with a liquid pump to "wash" the wire and recycle the liquid from a large container and then dry it with an air-wipe.

For AIM customers only; includes the bracket to the AIM straighteners. The wipes are available for most standard wire sizes or can easily be made by to fit custom wire sizes on your own. Simple and quick Installation!!
